1 Music playlist generation by adapted simulated annealing
Steffen Pauws, Wim Verhaegh, Mark Vossen
February 2008 **Information Sciences: an International Journal** , Volume 178 Issue 3
Publisher: Elsevier Science Inc.
Additional Information: full citation, abstract, references

Bibliometrics: Downloads (6 Weeks): n/a, Downloads (12 Months): n/a, Downloads (Overall): n/a, Citation Count: 0

> We present the design of an algorithm for use in an interactive music system that automatically generates
> music playlists that fit the music preferences of a user. To this end, we introduce a formal model, define the
> problem of automatic playlist generation ...

> **Keywords:** Local search, Music playlist generation, Music retrieval, Simulated annealing

2 Controlling multimedia players using NFC enabled mobile phones
Iván Sánchez, Marta Cortés, Jukka Riekki
December 2007 **MUM '07:** Proceedings of the 6th international conference on Mobile and ubiquitous multimedia
Publisher: ACM ⚲ Request Permissions
Full text available: 📄 Pdf (702.35 KB)   Additional Information: full citation, abstract, references, index terms

Bibliometrics: Downloads (6 Weeks): 7, Downloads (12 Months): 119, Downloads (Overall): 456, Citation Count: 5

> Multimedia content is commonly manipulated using a keyboard and a mouse. We propose an innovative way
> of controlling multimedia services using mobile phones equipped with NFC (Near Field Communication)
> compliant RFID readers. A user activates multimedia ...

> **Keywords:** HCI, NFC, RFID, multimedia player, multimedia services, remote control

3 An EPIC enhanced meeting environment
Qiang Liu, Frank Zhao, John Doherty, Don Kimber
October 2004 **MULTIMEDIA '04:** Proceedings of the 12th annual ACM international conference on Multimedia
Publisher: ACM ⚲ Request Permissions
Full text available: 📄 Pdf (162.72 KB)   Additional Information: full citation, abstract, references, cited by, index terms

Bibliometrics: Downloads (6 Weeks): 1, Downloads (12 Months): 9, Downloads (Overall): 319, Citation Count: 2

> ePic is an integrated presentation authoring and playback system that makes it easy to use a wide range of
> devices installed in one or multiple multimedia venues.

> **Keywords:** computer assisted presentation authoring, device control, multimedia venues, presentation
> authoring, rich media presentation

4 Jukola: democratic music choice in a public space
Kenton O'Hara, Matthew Lipson, Marcel Jansen, Axel Unger, Huw Jeffries, Peter Macer
August 2004 **DIS '04:** Proceedings of the 5th conference on Designing interactive systems: processes, practices,
          methods, and techniques
Publisher: ACM ⚲ Request Permissions
Full text available: 📄 Pdf (826.74 KB)   Additional Information: full citation, abstract, references, cited by, index terms

Bibliometrics: Downloads (6 Weeks): 83, Downloads (12 Months): 83, Downloads (Overall): 863, Citation Count: 9

> Jukola is an interactive MP3 Jukebox device designed to allow a group of people in a public space to
> democratically choose the music being played. A public display is used to nominate songs which are
> subsequently voted on by people in the bar using networked ...

> **Keywords:** MP3, cafe-bar, community, game play, handheld, jukebox, music, public display, ubiquitous
> computing, voting, wireless network

5 Mmb: a mobile music blogger system for inter-vehicle entertainment

Roy Chaoming Hsu, Han-En Lin, Andrew Wang
October 2007 **WMuNeP '07:** Proceedings of the 3rd ACM workshop on Wireless multimedia networking and
performance modeling

Publisher: ACM Request Permissions
Full text available: Pdf (409.80 KB)   Additional Information: full citation, abstract, references, index terms

Bibliometrics: Downloads (6 Weeks): 1,   Downloads (12 Months): 21,   Downloads (Overall): 193,   Citation Count: 0

The concept of Music Blogger for the moving vehicles is proposed in this study. Employing streaming of
music in a vehicular ad hoc network (VANET) enables the vehicle to become a mobile Music Blogger (MMB)
among other vehicles connected with the network. ...

Keywords: icecast, music blogger, vehicular ad hoc network

6 Google TV search: dual-wielding search and discovery in a large-scale product
Manish Patel, Roch Gosselweiler, Mehran Sahami, John Blackburn, David Brown, Andrea Knight
October 2008 **UXTV '08:** Proceeding of the 1st international conference on Designing interactive user
experiences for TV and video

Publisher: ACM
Full text available: Pdf (4.53 MB)   Additional Information: full citation, abstract, references, index terms

Bibliometrics: Downloads (6 Weeks): 11,   Downloads (12 Months): 154,   Downloads (Overall): 313,   Citation Count: 0

In 2006 Google designed and implemented a TV Show search system which featured a dual-navigation
control combining a powerful search system with an interactive, personalize-able TV listings grid. The dual-
control system allowed users to move fluidly ...

Keywords: EPG, IPTV, TV, TV guide, TV listings, electronic program guide, interactive TV, product case
study, search, discovery, television, user experience, user interface
